

The **DROUGHT** is **NOT** over! **WHAT CAN YOU DO?**

Be aware that we are still in a serious drought situation, and continue to conserve water wherever and whenever possible!

By conserving water, you will not only save money, but you will also be helping with the drought situation we are facing together here in our region.

And there are **many simple things** that you can do to conserve water.

Our region is still facing an **unprecedented drought threat**, but by importing water and working together to encourage conservation, we will be able to achieve a

**SUSTAINABLE
WATER FUTURE.**
