

THE CITY OF MONROVIA AND
OAK CREST INSTITUTE OF SCIENCE
PRESENT

JUNIOR RESEARCHER SUMMER ACADEMY 2018

SEEKING JUNIOR RESEARCHERS IN GRADES 8-10

SESSION FEE: \$40.00

Mon – Fri • 9:00 AM – 5:00 PM
Oak Crest Institute of Science
132 W. Chestnut Ave, Monrovia, CA 91016

SESSIONS

Session 1 • June 25 – July 06
No Academy on July 4

Session 2 • July 09 – July 20

Session 3 • July 23 – Aug 03

Participants are introduced to a variety of scientific fields through hands-on experiments mentored by research scientists. Students experience 'Learning by doing' as they participate in labs using scientific thinking and techniques to solve clues to help uncover a mystery. Students will be exposed to biology, chemistry, physics, and computer science in an engaging yet fun research environment.

Registration: <http://www.cityofmonrovia.org>
Enrollment is limited to twelve junior researchers per session.
Family and income based discounts available.
Priority registration to Monrovia families and first time researchers

TOP SECRET

During a routine patrol, Park Naturalists recover unusual and suspicious objects found near Monrovia Canyon Waterfall.

Exhibiting puzzling properties and wishing to seek answers, these artifacts were brought in for analysis to the Summer Academy Lab. It will be the challenge of the junior researchers utilizing scientific reasoning and sophisticated lab instrumentation from Oak Crest Institute of Science to provide scientific facts that these artifacts could be of extraterrestrial origin...but much more research is needed!

**OUR PHILOSOPHY IS SIMPLE:
“LEARN BY DOING”**
