

## Construction & Demolition Debris Recycling & Reuse Program

### WASTE MANAGEMENT PLAN (WMP)

*This form is to be completed and submitted with the application for a building or demolition permit for all projects over 1,000 square feet in area. **All applicants will be expected to divert at least 50% of the construction and demolition debris through recycling or reuse, unless an exemption is approved by the City.***

**Please indicate if your project is:**

- Residential: \_\_\_\_\_ Single Family \_\_\_\_\_ Multi-Family
- Commercial
- Old Town

**Please Indicate which permitted Solid Waste Hauler you will use: (check one)**

- Athens Services **-OR-**  Allied/BFI **-OR-**  Self-Haul: (Vehicle License Plate): \_\_\_\_\_
- Burrtec Waste
- Consolidated Disposal

Project Address (include floor, suite, etc.) \_\_\_\_\_

Applicant: \_\_\_\_\_

Contact Person: \_\_\_\_\_ Telephone: \_\_\_\_\_

Applicant Address: \_\_\_\_\_

1. Type of Project:  New Construction  Renovation  Demolition

2. Size of Project: \_\_\_\_\_ square feet

3. Estimated start date: \_\_\_\_\_ Estimated completion date: \_\_\_\_\_

4. Estimated quantity of construction and demolition debris to be generated: \_\_\_\_\_ tons

**Note: The actual quantities of materials generated, recycled, and reused must be reported to the city when the project is completed.**

5. How will recyclable materials be handled at the job site?

Recyclable materials will be placed in separate bins (source separated)

All recyclable materials will be placed in a common bin

Recyclable materials and trash will be placed in the same bin and sorted offsite

(Offsite sorting location/facility) \_\_\_\_\_

6. What types of recyclable materials are expected to be generated (check all that apply)?

- Asphalt or concrete  Brick or masonry tile  Cardboard
- Drywall  Dirt or rock  Landscape debris
- Unpainted lumber or wood  Scrap metal  Mixed materials
- Useable building materials (doors, windows, fixtures, etc.)  Plastics
- No recyclable materials will be generated  Other

7. The percent of the construction and demolition debris from the job site that will be diverted either through recycling or reuse will be:

- 50% of total generated       More than 50%       Less than 50% (provide explanation)

The 50% diversion requirement will not be met for this project because \_\_\_\_\_

\_\_\_\_\_  
\_\_\_\_\_

**Note:** A building or demolition permit for this project will not be issued unless this plan demonstrates that at least 50% of the C&D debris will be diverted. The city may grant an exemption from this requirement but only if the applicant can demonstrate that the project will not generate sufficient recyclable materials. **It is the applicant's responsibility to demonstrate why the 50% diversion requirement cannot be met.**

8. Disposal/Recycling Facilities to be used by applicant:

**Note to Applicants:** Obtain receipts or weight tickets from all facilities or vendors so that the quantities of materials recycled, reused, or disposed can be verified. As required by the City Municipal Code, these receipts are subject to review and audit, and must be presented to the city upon request.

Vendors or facilities for the materials that will be recycled or reused:

Vendor of Facility Name	Material to be recycled or reused
_____	_____
