

# Construction & Demolition Debris Recycling & Reuse Program

## WASTE MANAGEMENT REPORT (WMR)

*This report is to be completed and submitted to the city upon completion of a construction, renovation, or demolition project over 1,000 square feet in area. All applicants will be expected to divert at least 50% of the construction and demolition debris through recycling or reuse, unless an exemption is approved by the city.*

Permit #: \_\_\_\_\_

Project Address (include floor, suite, etc.) \_\_\_\_\_

Applicant: \_\_\_\_\_

Contact Person: \_\_\_\_\_ Telephone: \_\_\_\_\_

Applicant Address: \_\_\_\_\_  
\_\_\_\_\_

1. Type of Project:     New Construction     Renovation     Demolition

2. Type of Building:     Single Family     Multifamily     Commercial

3. Size of Project: \_\_\_\_\_ square feet

4. Project Completion date: \_\_\_\_\_

5. Report the actual quantities of materials recycled, reused, and disposed on the next sheet.

**Please note:** Applicants must have receipts or weight tickets from all vendors and facilities to which materials or trash was taken from the job site.

6. Diversion: \_\_\_\_\_% (from line 22 on next page)

Applicant Contact Name (printed): \_\_\_\_\_

Signature: \_\_\_\_\_ Date: \_\_\_\_\_

**For City Use Only:** Reviewed by: \_\_\_\_\_ Date: \_\_\_\_\_

**Disposition:**     Approved     Not Approved. Reason noted below.

Incomplete. Deficiencies noted below

**Quantities of construction and demolition debris generated:**

*In the following table, enter the exact weight (if available) in pounds or tons. If the quantity is in cubic yards, enter that information in Column B and use the conversion factor in Column C to calculate the tons. Retain all receipts and weight tickets for at least one year. As required by the City Municipal Code, these receipts are subject to review and audit, and must be presented to the city upon request.*

*Enter the name of the recycling facility or vendor in Column F. On Line 20, Column F, enter the name of the disposal facility to which the residual/non-recyclable material was hauled.*
